

Migrating to the Latest Version of PayPal

Last Modified on 10/26/2023 10:00 am EDT

SimplePart is proud to be a PayPal Partner. With more payment options and an improved checkout experience for customers, PayPal can help you boost sales and sell to new types of customers.

If you are using an older version of PayPal (e.g. PayPal Pro or PayPal Express) for your parts website, you can migrate to the updated version of PayPal at no additional cost.

The new PayPal integration offers the BNPL options of Pay in 4 and Pay Monthly, Venmo (US only), an improved checkout experience for your customers, and more:

Includes PayPal Pay Later

With Pay in 4 and Pay Monthly,¹ your customers can pay over time, while you get paid up front.

Comes with Venmo and NextGen appeal (US only)

Venmo users spend 2x more annually on online purchases than other online buyers.² And it's a popular payment option for Millennial and Gen Z shoppers.³

Improved Checkout experience

The new streamlined Checkout experience helps speed up customer transaction times and reduces cart abandonment, especially for mobile shoppers.

AI fraud detection

PayPal's AI software helps protect your business against fraud and cyber threats so that you can focus on sales. This fraud detection is offered in addition to SimplePart's comprehensive cyber security measures.

Adding the latest version of PayPal is easy

Ready to migrate to PayPal? Or maybe you haven't added PayPal yet to your parts website? Why wait? Adding the latest version of PayPal is easy with the help of our Client Services team!

Reach out to get started: email us at support@simplepart.com or call us at 1(888) 843-0425.
