Migrating to the latest version of PayPal (PayPal Complete Payments)

Last Modified on 03/27/2025 12:56 pm EDT

Navigate to the PayPal Status page

To get started, reach out to our CSC team and they will assist you in navigating to the PayPal Status page in the SimplePart Control Panel.

Click the Sign up for PayPal button. This will send you to PayPal login page to connect your store.

Note: If you are a dealer in Canada, contact our CSC team for further information. If you are a dealer in Australia, contact our Australian CSC team.

Input your email to create a PayPal business account or use your existing email that is assigned to your PayPal business account to log in.

Click the Allow button on the next page to make sure that PayPal works on your parts website.

By continuing, you give Test Store permission to perform some actions to make sure PayPal works on your site. These will include viewing account info and managing payments on your behalf.

View all actions Test Store can perform. You can change Test Store permissions in your Settings anytime.

Allow

Provide the customer support email and the customer support phone number so that customers can contact you with any questions. Click the Next button.

What's your customer support email?

Where your customers can email you if they have any questions or concerns.

Email
cs-sb-tqlos29888568@business.example.com

What's your customer support phone number?

Where your customers can call you if they have any questions or concerns.

Code
+1

Phone number
309

⚠ Please enter a valid phone number

Next

After you input your customer contact information, you'll navigate to the last page.

Your account is linked to Test Store and you're ready to take payments on your site.
You can go to your business account to set up your new capabilities and link a bank account.

Return to Test Store

Go to your PayPal account

Set up automatic transfer

Confirming your PayPal status

To confirm your PayPal status in the SimplePart Control Panel, go to the PayPal Status page. After you've linked

To confirm your PayPal status in the SimplePart Control Panel, go to the PayPal status page. After you've linked your PayPal business account to your SimplePart site, you will see new information on the status page:

- Your merchant ID

- Tracking ID

- Payments Receivable (set to "True")

- Primary email confirmed (set to "True")

- Legal name: (Your site name)

- Products

 Note: If there are errors with the confirmation or the PayPal business account did not link to your site, there will be red error texts. If you receive an error during this process, contact our CSC team for help.

Changing your PayPal status

 If at any time you want to change your PayPal status, go to the PayPal Status page in the SimplePart Control Panel. After you've linked your SimplePart site with your PayPal business account, you'll see the following options on the status page:
Disable PayPal PayLater
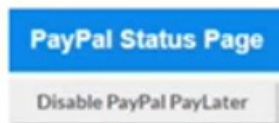

Disable PayPal

Enable PayPal

Got questions?
